

# Comprehensive Workplace Solutions

Do you agree or disagree with the following statements? Please place your sticker in the corresponding boxes:

	1- AGREE	2- NEUTRAL	3- DISAGREE
Comprehensive Workplace Solutions should cover all their costs and, if they can't, my college or university should not offer those services.			
Businesses should pay costs to train their employees, but all the other services should be supported by student tuition or state funding.			
MnSCU should serve businesses (because they contribute to the economic development of our communities) and we should stop worrying about the revenue.			
Based on regional geography, colleges and universities should have a collaborative strategic plan for offering comprehensive workplace solutions and should consolidate their resources and pool revenue as a collaborative group.			
Based on educational program area, colleges and universities should have a collaborative strategic plan to offer comprehensive workplace solutions and should pool revenue among the members who offer these programs and participate in a collaborative.			

**CHARTING THE FUTURE**  
FOR A PROSPEROUS MINNESOTA
