VI. CURRENT DTA ASSOCIATE DEGREE GUIDELINES 2013
(Approved August 2013—Effective January 2014, with a two-
year grace period for students ending in January 2016)

For the purpose of these Guidelines, the Direct Transfer Agreement (DTA) Associate degree
(sometimes called the Associate in Arts, Associate in Arts and Sciences, etc.) is defined as that
degree awarded by a community college to students who have completed a transfer curriculum.
In order to fulfill most general education requirements for a baccalaureate degree, the Associate
degree should possess the following characteristics:

I. Be issued only to students who have earned a cumulative grade point average of at
least 2.00, as calculated by the degree awarding institution.

II. Be based on 90 quarter hours of transferable credit including:

A. A minimum of 60 quarter hours of general education courses distributed as
follows:

1. Basic Requirements

   a. Communication Skills (10 credits)

      Must include at least five (5) credits of English composition.
      Remaining credits may be used for an additional composition course
      or designated writing courses or courses in basic speaking skills
      (e.g. speech, rhetoric, or debate).

   b. Quantitative/Symbolic Reasoning Skills (5 credits)¹

      1. Five (5) credits of college level mathematics (a course with a
         Mathematics prefix numbered 100 or above) that furnishes the
         quantitative skills required in the commonly recognized
         educational transfer pathways toward a baccalaureate degree.
         Accepted courses in these pathways are: Pre-calculus or higher,
         Mathematics for Elementary Education³, Business Pre-
         calculus/Finite Mathematics, Statistics, and Math in Society; or

      2. Five (5) credits of a symbolic logic course that focuses on (a)
         sentence logic with proofs and (b) predicate logic with quantifiers
         and proofs and/or Aristotelian logic with Venn Diagrams.

¹ For admission to the institution, the University of Washington requires completion of the course
designated Algebra II (Integrated Math III; Math 098) at either the high school or community
college. However, UW recognizes the new QSR requirement as fulfilling the DTA QSR
requirement.

² To qualify for QSR, college level math and logic courses must require intermediate algebra
course work (high school or college) with a grade of 2.0 or higher as a prerequisite.

³ The University of Washington accepts Mathematics for Elementary Education for elective credit,
but not as meeting its QSR requirement, since UW offers no degree pathway for which it is
appropriate.
2. Distribution Requirements

Within the distribution requirements, integrative, synthesizing courses and programs, including interdisciplinary courses and linked sequences of courses, are to be encouraged, especially for colleges requiring a minimum of two disciplines per area.

Where appropriate, preparation courses for the major should be included in this course work.

NOTES:

1. Within appropriate distribution areas, colleges are encouraged to develop curriculum which provides students with an understanding of and sensitivity to cultural differences by completing courses requiring study of cultures other than their own. To most, this may include minority, non-Western ethnic, or other area studies.

2. A specific course may be credited toward no more than one distribution or skill area requirement.

3. A list of suggested disciplines is subject to review by the ICRC.

4. Faculty teaching first-year language courses are encouraged to include cultural aspects of study in their courses.

CLARIFICATIONS:

A. Associate degrees (DTA) meeting the distribution system in these Guidelines represent but one model for valid general education programs. Community colleges and baccalaureate institutions are encouraged to develop models, including interdisciplinary core requirements or vertical general education requirements with courses at the upper division level. Institutions using such alternative approaches are further encouraged to develop individual inter-institutional transfer agreements.

B. The Associate degree (DTA) agreement will provide for the fulfillment of college and university general education requirements only, and it is not intended that this agreement should cause modifications of unique requirements (religion, philosophy, etc.). Further, it should be clearly understood that agreements based upon these Guidelines in no way alter admission criteria established by baccalaureate institutions.

C. The Associate degree will generally provide the transferring student with at least 90 quarter (60 semester) credits upon entry to a baccalaureate institution.

D. Community colleges should strictly enforce stated requirements without undue use of waivers, substitutions, or exceptions.

E. Institutions developing mutual agreements must clearly identify degree titles and effective dates in order to provide clarity for students and their advisers and for transcript evaluation.

F. Community colleges agree to develop precise language concerning their direct transfer Associate degree and to publish this information with all degree requirement information. Baccalaureate institutions agree to publish information about the details of their Associate degree agreements.

G. Remedial courses (courses numbered below 100) shall not be included in the 90 quarter hours of the Associate degree.
H. A list of the specific courses which satisfy Associate degree requirements shall be published.

I. Community colleges and baccalaureate institutions agree to state their credit-by-exam policies in their catalogs. While accepting the Associate degree, receiving institutions shall grant credit for extra-institutional learning on the same basis for transfer students as for native students.
